Hardware and Software Requirements

Hardware

Server

Software

If on Server

Web browser and it to have a web address that you can go to in order to access the web page. You will also need to be connected to Wi-fi to access the page and have it submit to the database

Not on Server or to Update Code

Microsoft Visual Studio CD Jam created it in Microsoft Visual Studio 2015 so an version of that or higher will allow you to run or edit the code.
